

Please do not do anything that will take away from the effectiveness of Indiana's Telephone Privacy Law. When this law went into effect, the number of weekly telemarketing calls immediately plummeted. I used to receive sometimes 20-25 calls per week. Now I get only a few each week. As soon as I tell them that I had signed up on the 'no call' list, they usually hang up on me! Please do not diminish the effectiveness of this law. It's a terrible thing to be afraid to answer the phone in your own home.

week, now I only receive one").
